Project Recommendation for Science Exhibition participation to be filled by the Mentor Teacher

Project Recommendation

(Project Recommendation should be completed by the mentor teacher associated with the registered team of participating student/s.)

Do you have a familial relationship with the student of the team?

Yes / No

Have any of your former students entered and/or won awards in the CBSE Science Exhibition?

[ ] Yes, my students have participated

[ ] Yes, my students have won awards at the regional or national level in CBSE Science Exhibition

Year: _____ Details: _____

[ ] No, none of my students have ever participated earlier in the CBSE Science Exhibition

[ ] Unsure

What level of mentorship have you provided the student/team with the CBSE Science Exhibition application process and/or research project?

This is my first time mentoring students for the CBSE Science Exhibition. When the students (Gautam Kumar and Abhinav Kumar) approached me with their idea of helping local vegetable growers detect blight early, my guidance focused on keeping their project scientifically grounded and safe. I helped them define a clear scope on Solanaceae foliar blights (Early and Late Blight), guided their study of ICAR pathology bulletins, and assisted in procuring infected and healthy tomato leaf samples from nearby farm plots in Begusarai for laboratory verification. I also supervised electrical safety protocols during power-rail soldering and battery testing in our school science lab.

The engineering design, dual-ESP32 C++ firmware, camera optical shroud, MobileNet neural model quantization, and field trials were conceived, programmed, and executed by the students together.

Can you attest that the work submitted by the student/team properly reflects their own work?

[X] Yes

[ ] No
